

SecuritasConnect®

SecuritasConnect is your window to view your site's security, any time of the day or night

The security industry is constantly evolving. Securitas Critical Infrastructure Services (SCIS) believes the future of security is built on a combination of people, technology and knowledge. We are committed to sharing this knowledge with our clients through SecuritasConnect. This technology empowers clients with the knowledge they need to be secure, providing 24/7 visibility and control over their security programs. SecuritasConnect increases the value of many of our services, including On-site, Mobile, and Remote Guarding.

Your Window:

- People** See the security officers who are currently on-site through schedule visibility.
- Procedures** View post orders, incident tracking, tour information and more in real time.
- Tools** Remotely access the technology utilized at your site.
- Training** Track officer training details and progress.
- Feedback** Compare current performance with Service Plan goals and defined KPIs.

Key Benefits of SecuritasConnect Include:

- Easily customizable and scalable features.
- Real-time data collection, analysis, trends and metrics.
- Customized smart-tours with reliable NFC token technology.
- Alert notifications when tours are late and 24/7 smart monitoring.
- Officer training details allow for monitoring officers' progress through the curriculum.
- Information is encrypted and secure.

SecuritasConnect helps enhance security officer performance and your daily operational functions:

Organization

Centralize post orders, schedules, time logs, incident reports, tours with Near Field Communication (NFC) technology, and more. With paperless reports, SecuritasConnect allows you to quickly retrieve information to help you make effective decisions.

Efficiency

Considerably reduce your administrative tasks by eliminating manual procedures. SecuritasConnect provides real-time online accessibility and alert notifications via text and email.

Accountability and Performance

Consistent monitoring has a direct positive impact on liability reduction and motivation for security officers, translating into an increase in professionalism and efficiency.

SecuritasConnect will provide your business with modern technology and industry leading 24/7 support to enhance your existing security program. To learn more about how SCIS can help you secure your business, contact us at: 844 SCIS USA www.scisusa.com
